Loose Soil Anchors

V-LOC

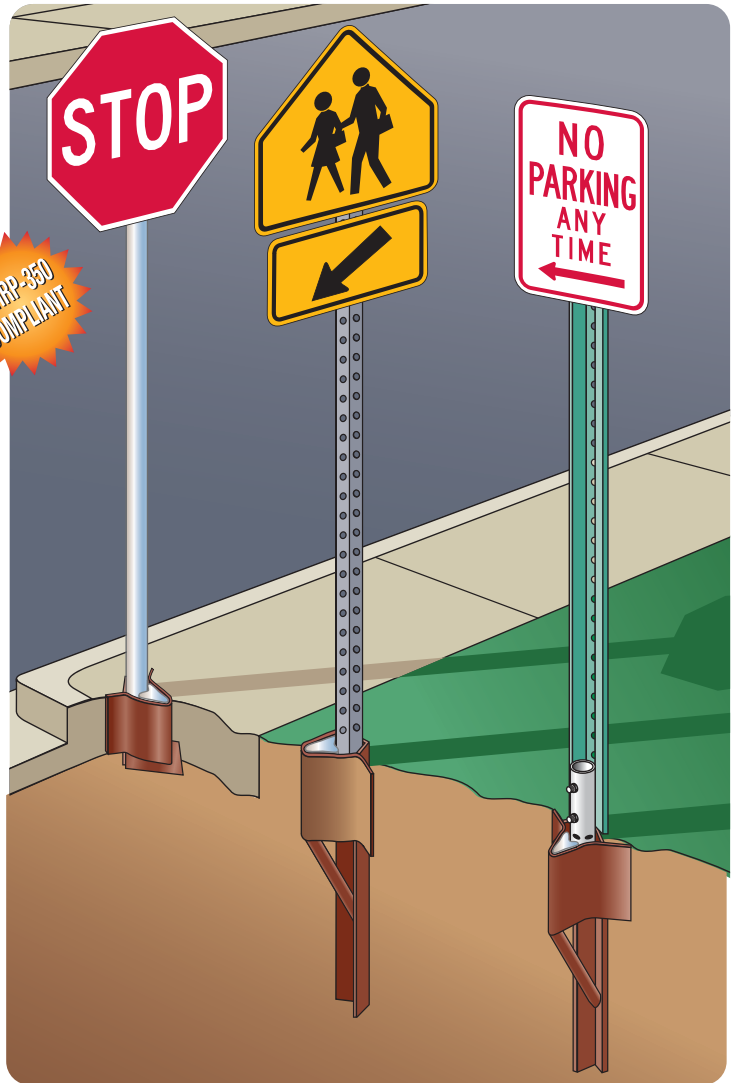

V-Loc® is a heavy-duty permanent state of the art, re-usable breakaway anchor. It mounts posts for signs, mailboxes and other applications flush to the ground for unequaled safety.

The V-Loc® socket can be installed in concrete, asphalt or dirt safely by one man in a matter of minutes either by hand or power driver. The strong steel fins hold the socket securely in the ground, resisting movement from wind vibration. After a knock-down, the socket is re-usable, requiring only the replacement of the locking wedge.

V-Loc's flush-to-the-ground configuration allows sign posts to break off cleanly at ground level, with a 360° impact Zone.

SIGN SUPPORT ANCHORING SYSTEM

V-Loc® is the state of the art in sign anchoring systems. You won't find a simpler, safer, more durable, functional and economical post anchor than V-Loc. We offer many types of models to suit almost any condition. Choose the type of V-Loc that matches your soil or pavement type and post type.

PIPE POSTS MODELS

Model	Product Number	Wt./Unit (pounds)	Post OD (inches)	Leg Angle	Fin Dimensions	Application
23-VR1	#11502302	5.00	2.375	2.5 x 2.5 x .25 x 8"	8 x 9.25 x 12 ga.	Concrete

MANUAL DRIVE CAP

For sledge driving
#11501500

POWER DRIVE TOOL

Complete with Shank and Driver Head #11501504
Power Drive Cap only #11501505
Driver Shank only #11501506

POWER DRIVE SHANK

Five different hex sizes fit all breaker type hammers. We offer a shank with tapered bottom insert to fit Power Drive Cap.

Proper shank size is determined from two measurements:
(A) Hex diameter across two opposite flats.
(B) Length of Hex portion of shank.

Please know these dimensions when ordering a shank and cap for your power type hammer.
