

Stop Ahead LED BlinkerSign®

MUTCD W3-1

TRAFFIC SAFETY
SUPPLY COMPANY

PRODUCT DESCRIPTION

A Stop Ahead BlinkerSign provides high-visibility advance warning to drivers approaching a stop sign. They are ideal for intersections that are poorly lit, have visibility challenges - including horizontal and vertical curves - or at crossing where high-speed major highways intersect lower-speed secondary roads. They enhance safety by warning drivers well in advance of stop intersections, allowing a gradually reduction in speed decreasing blow-throughs.

If you want to draw attention to a new stop intersection, it can be easily relocated and replaced with a standard sign after drivers have become accustomed to the new condition.

MAPPING

- Installs easily onto any new or existing sign post
- Can be integrated into an ITS (Intelligent Transportation System)
- High intensity Day-Viz™ LEDs command attention day and night
- Can be programmed to operate continuously (24/7) or on solar time clocks, push-buttons and motion (vehicle) detectors
- Proprietary circuitry automatically adjusts light output for maximum visibility and battery efficiency
- Multiple signs can be synchronized
- Heightened driver awareness
- Increased visibility at high incident intersection

Note: Specifications are approximate and subject to change. Some parts shown may be for illustration purposes only.

COMPLETE SPECIFICATIONS

SIGN SPECIFICATIONS

- Sign Substrate .080 Highway Grade Aluminum
- Reflective Sheeting 3MTM- with anti-graffiti overlay
- MUTCD Compliance Section 2A.08 Compliant

DAY-VIZ™ MANAGEMENT SYSTEM

- Battery - Nickel Metal Hydride (NiHM) - 14,000
- Battery Lifespan - up to 5 years
- Functionality without charge - up to 30 days in 24/7 operation
- Flash pattern is MUTCD Compliant
- LED Type - High Power Luxeon - 1 watt
- LED Life Expectancy - Over 100,000 hours

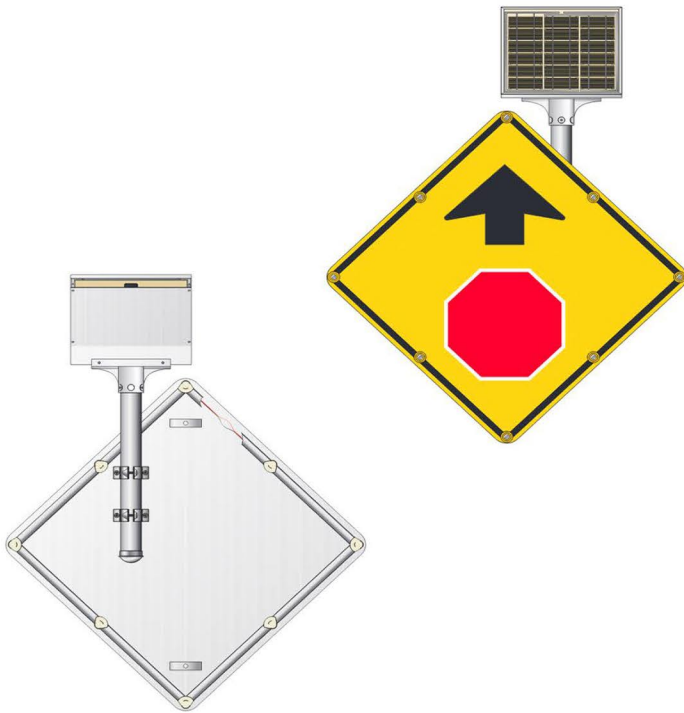

WARRANTY

- 3 Year Warranty

SMART ACTIVATION OPTIONS

- 24/7 CONTINUOUS
 - This is the always on option providing 24/7 flashing of your system
- TIME CLOCK ACTIVATION (WINDOWS BASED SOFTWARE PROGRAMMABLE)
 - Windows-Based Program Running from a Laptop or PC (Software and Cable Sold Separately)
 - Ideal for School, Business and Industrial Facility Work Schedules
- WIRELESS CONTROL ACTIVATION
 - Pedestrian Motion detection
- VEHICLE DETECTION ACTIVATION
 - Vehicle motion detection

Note: Specifications are approximate and subject to change. Some parts shown may be for illustration purposes only.

IDEAL APPLICATION

- High incident intersections
- Rural Roads
- Advance stop sign warning
