

# Safety and Security Mirrors

## Increase Visibility

TRAFFIC SAFETY  
SUPPLY COMPANY

»» IMPROVING TODAY FOR A SAFER TOMORROW

## PRODUCT OVERVIEW

At Traffic Safety Supply Company we know visibility keeps your business safe. Our safety mirrors help prevent accidents and deter theft, with options for wide-angle coverage in aisles, hallways, elevators, and more.

### Convex & Roundtangular Mirrors

#### Convex

- 160° of Viewing Area
- Suitable for almost any security or safety application
- Available in both acrylic and polycarbonate lenses

#### Roundtangular

- Made from engineered plastic with UV inhibitors.
- Cropped top and bottom allows installation in areas with low clearance
- Available in both acrylic and polycarbonate lenses

### Dome Mirrors

#### Full Dome

- 360° of Viewing Area
- Intended to prevent collisions at 4-way intersections and for monitoring rooms with obstructed views
- Available in both acrylic and polycarbonate lenses

#### Half Dome

- 180° of Viewing Area
- Perfect for hallways at "T" intersections
- Available in both acrylic and polycarbonate lenses

#### Quarter Dome

- 90° of Viewing Area
- Perfect for elevators
- Available in both acrylic and polycarbonate lenses

### T-Bar Mirrors

#### T-Bar Dome

- Use the T-Bar Dome in offices to deter theft
- Acrylic Lens

#### Flat Panel

- Flat Panel Mirrors are suitable for cubicle surveillance and decorative purposes
- Acrylic Lens

### CHARACTERISTICS OF LENS MATERIAL

**Acrylic:** Good weather resistance and impact resistance with high reflectivity

**Polycarbonate:** Extreme weather resistance, superior impact resistance, and good reflectivity.

### SIZING GUIDELINES

A good rule of thumb is to use one inch of mirror diameter for every foot of visibility.

*Example:* If you are viewing a 30 ft. area, use at least a 30" diameter mirror.

### INSTALLATION

**Convex Mirrors:** Mounting hardware is included along with easy to follow instructions. Convex mirrors featured in Economy, Indoor/Outdoor and Heavy Duty. Each backing provides increasing level of weather durability.

**Dome Mirrors:** Dome mirrors have pre-drilled holes for direct ceiling installation. Full domes include hanging chains. Half and Quarter Dome mirrors feature the Easy Clip system for fast installation on suspending grid ceilings.

### CLEANING AND MAINTENANCE

Clean with a microfiber cloth using ammonia free glass cleaner or a gentle soap and water solution. Do not use any harsh chemicals or abrasive cleaning materials.
