

City Post — Flush Mount

**TRAFFIC SAFETY
SUPPLY COMPANY**

PRODUCT DESCRIPTION

The City Post - Flush Mount is an ultra-high performance post that features a sleek profile and quick “spin-in” deployment. This all polyurethane channelizer post demonstrates quick, sharp rebound when impacted and is perfect for installations in high-speed, high-impact locations like gores, toll plazas and HOT lanes as well as low-speed urban locations where trip hazards are a consideration.

Features and Benefits:

- » Thermoplastic Polyurethane for high-Impact Resistance.
- » Crash Friendly Design
- » 1-Piece Construction with No Mechanical Springs to Fail
- » 360° of Visibility with Factory Applied Reflective Sheeting
- » Installs in Concrete or Asphalt
- » Easy “Spin-In” Installation, minimizes Work Exposure
- » Sizes: 36” & 42”
- » Standard and Custom Colors

Applications:

- » Provide protection and guidance in high vehicle and foot traffic environments
- » Make gore points more visible
- » Delineation in Toll Plazas
- » Emergency vehicle access
- » Bike lane and pedestrian walkway delineation
- » Parking lot and street closures for events

Anchor cups install easily, allow for simple, quick spin to install and remove the posts and offers years of safe, reliable performance in the field. The optional anchor cup plug is available for snow plow operations when posts are not in place.
