

FEATURES

A high-quality, ultraviolet and impact resistant plastic polymer makes these posts the most impact resistant markers available today... even at 65 m.p.h.! The Survivor features a metal U-Channel anchor system that allows installation in rocky and hardpan soils without the need for a pilot hole. Pre-drilled for quick attachment of the post to the anchor makes the Survivor one of the easiest delineators to install.

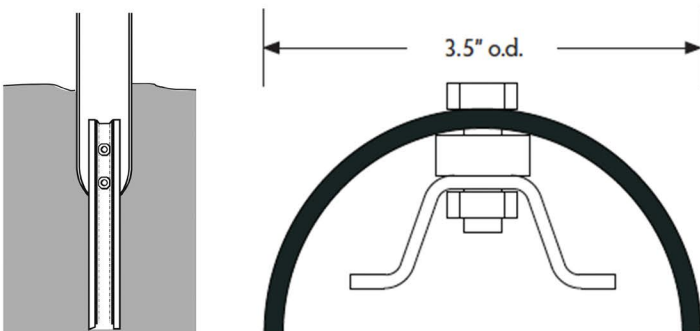

Material: Plastic Polymer

Length: 66"(167.6cm), 72" (182.9cm)

Width: Semicircular Cross Section- 3-1/2"(8.89cm)

Weight: 4.3 lbs. (1.95kg)(72")

Colors: White, Yellow
