

Pedestrian Guide Marker

On-Ground Work Zone Detour Sign

TRAFFIC SAFETY
SUPPLY COMPANY

PRODUCT DESCRIPTION

The Pedestrian Guide Marker was developed to help guide pedestrians through the work zone. They should be placed close enough to together on the ground so the pedestrian can easily see the safe path through your work zone. Each marker has a fluorescent decal so they can be seen in low light conditions. They can be easily applied by removing the bituminous backing paper and placing them in the intended location on most solid surfaces. When the path changes, the markers can be easily removed.

3" x 5" Pedestrian Guide markers are made with durable Polyurethane, backed with bituminous adhesive and are available in either non-reflective Fluorescent Yellow Green or Fluorescent Orange pedestrian decal.

AT-A-GLANCE

Width: 3 inches
Height: 5 inches
Material: Polyurethane
Colors: Fluorescent Orange
Part# DP0467
Fluorescent Yellow Green
Part# DP04680
