MATERIALS AND SPECIFICATIONS

MARATHON™
materials provides and extremely high level of retro-reflectivity. Marathon offers exceptional daytime

brightness and enhanced nighttime visibility by providing a higher level of reflectivity of not less than 62,000 microprisms per square inch. In addition, Marathon is a super high performance material warranted for 3 years to retain its color and retro-reflectivity.

SUPER BRIGHT™
fluorescent orange material is a highly reflective, high performance material designed for a high

level of retro-reflectivity. Super Bright offers outstanding daytime brightness and excellent nighttime visibility, providing a high level of reflectivity of not less than 47,000 microprisms per square inch.

FLUORESCENT CORAL
Retro-reflective fluorescent coral-colored signs are federally recommended for emergency response and

traffic incident management. Distinct color clearly distinguishes traffic emergencies from construction zones or other road hazards.

NON-REFLECTIVE VINYL
fluorescent orange material Roll-Up signs are an economical way to alert drivers of

events, parking, and safety check points, when the use of a reflective sign is not required. Intended for daytime use only. Not intended for use during low light conditions and night operations.

PERMANENTLY ATTACHED FLAG SYSTEMS

FFS-12 FOLDING FLAG SYSTEM

This permanently attached folding flag system insures that flags will always be handy and ready to deploy. Rotate flags from their storage position to the display position for use, reverse to store sign. Flags are 18" x 18" blaze orange vinyl coated nylon on 1" wide fiberglass staffs. FFS-12 has 2 flags, FFS-13 has 3 flags.

FFS-22 FOLDING FLAG SYSTEM

Designed to allow permanently mounted warning flags to be quickly locked in place, flags deploy by rotating into the display position and sliding the clip down. Reverse for storage. Flags are 18" x 18" blaze orange vinyl coated nylon on 1" wide fiberglass staffs. FFS-22 has 2 flags, FFS-23 has 3 flags.

FLAG HOLDERS FOR DETACHABLE FLAGS WITH ROUND STAFFS

These flagholders are made of zinc-plated steel and are designed for use with flags that ave a 3/4" round staff.

FHRU

Has a front and back plate that clamp together with four nuts and screws allowing the flag holder to be attached to the vertical rib of a roll-up sign without drilling a hole through the rib. Displays three flags.

2

RL-FH3

Has a channel shaped plate and a single hole allowing it to be attached to the vertical rib of a roll-up sign with a single nut and bolt, a 1/4" hole in the vertical rib is required. Displays three flags.

3

FH3010

This flag holder comes installed on our full size stands, such as the TF18, and may be attached with screws to replace damaged units or added to rigid signs, barricades, or posts. Displays three flags.

4

FH-STABLOCK

Designed for use with the Fold and Roll™ sign system, this flag holder sockets into the 1" square vertical tube and locks in place with a spring button. Displays two flags.

**Note: Specifications are approximate and subject to change.
Some parts shown may be for illustration purposes only.**

Roll-Up Signs

TRAFFIC SAFETY

MAST CLAMP OPTIONS FOR ROLL-UP SIGNS

DualClamp

Features openings for 1" and 1-1/4" square masts.

UniClamp

Allows sign to be affixed to various size square and round masts.

Roll-Up Bracket (RUB3315)

Allows sign to be mounted to the vertical masts on full size strands.

Plastic Buckle Pocket

New & improved strength! Plastic Buckle Pockets are made of tough polycarbonate material and are attached to the sign with elastic which keeps constant tension on the sign in hot and cold weather.

Delta Pocket

At 3/4" deep, the Delta Pocket is designed to be easier to deploy than conventional pockets. Made of tough polycarbonate, it features increased strength and the smallest storage diameter in the industry.

Rectangular Pocket

Featuring a full depth design, rectangular pockets are typically used at the top and bottom of the sign. Made of tough polycarbonate, they will fit all pocket style sign holders.

Cloth Pocket

The cloth pockets is sewn to the sign face and is made from nylon reinforced vinyl. Cloth pockets are easy to use and allow for the smallest rolled up storage diameter.

OVERLAY OPTIONS (CHANGEABLE MESSAGE) OPTIONS FOR ROLL-UP SIGNS

Standard Overlays

Most signs may have velcro added to specific words that allows for multiple messages to be displayed using a single roll-up sign. Overlays are made from the same material as the sign and come with velcro strips on the back. Snap attachment is also available on request.

Note: Specifications are approximate and subject to change. Some parts shown may be for illustration purposes only.

Dual Transition Symbol Sign Overlays

Removable Overlay
(least expensive)

Permanent "Page Over" Overlay
(eliminates the risk of lost overlays)
